Parent(s)/Guardian(s) Authorization to Administer Medication

The administration of medication involves certain elements of risk, including, but not limited to illness, adverse reactions or other complications. Reactions caused by the administration of any medication can occur without fault on any party; the student, or the OCDSB or its employees or agents. By requesting and consenting to the administration of medication by an employee of the OCDSB, or by authorizing the self-administration of medication by the student, you are assuming any associated risks.

In life-threatening emergencies, staff will administer prescribed medication to students “in loco parentis” and not as healthcare professionals.

I/We authorize the OCDSB staff to administer prescribed medication to the student as prescribed. I/We understand that OCDSB staff is not medically trained to administer medication and bear sole responsibility for any adverse reaction that might occur following the administration of medication.

The student is capable of administering their own medication. I/We bear sole responsibility for any adverse reaction that might occur following the self-administration of medication.

Consent to Release Information

Does the student use OSTA bus on a regular basis?

Yes. A copy of the Student Care Plan will be shared with OSTA.

No.

I/We give consent for the school to share this Plan of Care as necessary with individuals in direct contact with the student to attend to their well-being and medical needs at school and during school activities. This may include school and office staff, occasional staff, OSTA, contracted bus operators and bus drivers, before- and after-school program staff. This plan will be posted in identified areas of the school for emergency response purposes.

I confirm that the information herein is accurate and up to date. I understand that I must re-submit this form in case of any changes to the student's medication, condition, level of independence, or treatment plan.
