Liability Insurance Coverage for the Secondary School's Community Involvement Program

Community sponsors should be advised that students who are performing volunteer work are protected by the school districts liability insurance while they are performing their required forty (40) hours of community involvement. Community sponsors are also protected by the districts liability insurance for claims that arise out of our students' activities for their organizations.

Community sponsors should also be aware that, like job shadowing and other similar work experience programs, students do not have accident insurance or Workplace Safety Insurance coverage through the school board. The school districts expect the community sponsors to ensure that student volunteers are provided with safety instructions and are trained and supervised to ensure a safe and mutually beneficial volunteer experience.
